Available Product Categories

Visual category cards generated from the current website product catalogue. Product counts update from the available brand/product data.

15 products

RO Housings

Membrane housings for commercial and industrial reverse-osmosis systems.

4 products

RO Membranes

Membrane separation for desalination, process water, and purification systems.

1 products

Domestic RO Membranes

Compact membranes for domestic and light-commercial water purifiers.

1 products

RO Antiscalant

Scale-control chemistry for improved membrane life and system uptime.

1 products

RO Controller and Instruments

Monitoring and control instruments for RO automation and process visibility.

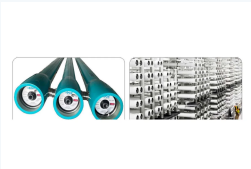

10 products

Dosing Pumps

Chemical dosing for antiscalant, pH correction, disinfection, and process control.

Available Product Categories

Visual category cards generated from the current website product catalogue. Product counts update from the available brand/product data.

1 products

FRP Vessels

Pressure vessels for filters, softeners, and industrial water-treatment systems.

1 products

Multiport Valves

Manual and automatic valve control for filters, softeners, and treatment units.

1 products

Distribution Systems

Internal vessel distribution for uniform flow and efficient media performance.

1 products

Filter Cartridges

Sediment and polishing filtration for pre-treatment and final filtration stages.

1 products

Filter Media

Media for sand filters, carbon filters, iron removal, and specialty filtration.

1 products

Cation Exchange Resins

Softening and demineralization support for water-treatment systems.

Available Product Categories

Visual category cards generated from the current website product catalogue. Product counts update from the available brand/product data.

1 products

Electro Chlorination Systems

On-site chlorine generation for safe and controlled disinfection.

1 products

High Pressure Pumps

Pressure generation for RO and industrial water-treatment applications.

1 products

Hydro Pneumatic Tanks

Pressure stabilization and water storage for commercial and industrial systems.

1 products

Level Sensors

Tank-level monitoring and process protection for water-handling systems.

3 products

Wastewater Filtration Systems

Filtration support for effluent, recycling, and wastewater reuse applications.

1 products

Wastewater Dosing Systems

Chemical dosing and conditioning for wastewater treatment processes.

Available Product Categories

Visual category cards generated from the current website product catalogue. Product counts update from the available brand/product data.

1 products

Wastewater Accessories

Supporting accessories for wastewater and effluent treatment installations.

RO Housings

WATER TREATMENT COMPONENTS

Product overview, quote QR, key features, applications, and related product direction.

Verified Product Details

BRAND	Multiple brands available
PRODUCT CATEGORY	Water Treatment Components
PRODUCT PAGE	iconicfiltration.com/products/ro-housings

Short Description

RO housings protect membrane elements, maintain pressure integrity, and support stable permeate quality in reverse-osmosis skids. The correct housing choice improves service access, sealing reliability, and long-term system uptime.

Request a Quote

Key Features

- Membrane size and element count
- Feed pressure range
- End-port or side-port arrangement

Applications

- Commercial RO plants
- Industrial RO skids
- Process-water polishing

Available Sizes / Variants

- 4 inch End Entry Membrane Housings
- 4 inch Side Entry Membrane Housings
- 8 inch End Entry Membrane Housings

Compatible Products

- RO Membranes
- Domestic RO Membranes
- RO Antiscalant

Related Products

- DAX 4 inch End Entry Membrane Housings
- DAX 4 inch Side Entry Membrane Housings
- DAX 8 inch End Entry Membrane Housings

RO Membranes

WATER TREATMENT COMPONENTS

Product overview, quote QR, key features, applications, and related product direction.

Verified Product Details

BRAND	Multiple brands available
PRODUCT CATEGORY	Water Treatment Components
PRODUCT PAGE	iconicfiltration.com/products/ro-membra

Short Description

RO membranes remove dissolved salts and impurities through pressure-driven separation. Membrane selection directly affects recovery, rejection, cleaning frequency, and operating cost.

Request a Quote

Key Features

- Feed TDS and water chemistry
- Recovery target
- Fouling and scaling risk

Applications

- Industrial RO plants
- Process-water treatment
- Boiler feed pre-treatment

Available Sizes / Variants

- CPA Membranes with LD Technology
- ESPA Membranes with LD Technology
- SWC Membranes with LD Technology

Compatible Products

- RO Housings
- Domestic RO Membranes
- RO Antiscalant

Related Products

- Hydranautics CPA Membranes with LD Technology

Domestic RO Membranes

WATER TREATMENT COMPONENTS

Product overview, quote QR, key features, applications, and related product direction.

Verified Product Details

PRODUCT CATEGORY	Water Treatment Components
PRODUCT PAGE	iconicfiltration.com/products/domestic-ro

Short Description

Domestic RO membranes support compact purification systems where reliable taste, clarity, and TDS reduction matter. They are selected for stable output in household and light-commercial applications.

Request a Quote

Key Features

- GPD rating
- Feed-water quality
- Recovery and reject flow

Applications

- Domestic RO purifiers
- Light-commercial purifiers
- Office pantry systems

Available Sizes / Variants

Verified data will be added when available.

Compatible Products

- RO Housings
- RO Membranes
- RO Antiscalant

Related Products

Scan QR for quote

RO Antiscalant

WATER TREATMENT COMPONENTS

Product overview, quote QR, key features, applications, and related product direction.

Verified Product Details

PRODUCT CATEGORY	Water Treatment Components
PRODUCT PAGE	iconicfiltration.com/products/ro-antiscala

Short Description

RO antiscalant helps control mineral scaling on membrane surfaces, supporting higher recovery and more stable differential pressure. Proper dosing is based on feed-water analysis and system design.

Request a Quote

Key Features

- Feed-water chemistry
- Recovery percentage
- Dosing concentration

Applications

- RO scale prevention
- High-recovery systems
- Brackish-water treatment

Available Sizes / Variants

Verified data will be added when available.

Compatible Products

- RO Housings
- RO Membranes
- Domestic RO Membranes

Related Products

Verified data will be added when available.

RO Controller and Instruments

WATER TREATMENT COMPONENTS

Product overview, quote QR, key features, applications, and related product direction.

Verified Product Details

PRODUCT CATEGORY	Water Treatment Components
PRODUCT PAGE	iconicfiltration.com/products/ro-controlle

Short Description

RO controllers and instruments help teams monitor pressure, conductivity, flow, level, and protection interlocks. Good instrumentation improves operator confidence and makes troubleshooting faster.

Request a Quote

Key Features

- Measured parameters
- Display and alarm needs
- Sensor compatibility

Applications

- RO automation panels
- Conductivity monitoring
- Flow and pressure tracking

Available Sizes / Variants

Verified data will be added when available.

Compatible Products

- RO Housings
- RO Membranes
- Domestic RO Membranes

Related Products

Verified data will be added when available.

Dosing Pumps

WATER TREATMENT COMPONENTS

Product overview, quote QR, key features, applications, and related product direction.

Verified Product Details

BRAND	Multiple brands available
PRODUCT CATEGORY	Water Treatment Components
PRODUCT PAGE	iconicfiltration.com/products/dosing-pum

Short Description

Dosing pumps meter treatment chemicals at controlled rates so plant operators can manage scale, pH, disinfection, and process conditioning. They help keep water-treatment performance predictable across changing feed conditions.

Request a Quote

Key Features

- Flow rate and turndown
- Chemical compatibility
- Discharge pressure

Applications

- Antiscalant dosing
- pH correction
- Chlorine dosing

Available Sizes / Variants

- Tork TY
- Kosmo MM2
- Kosmo MM1

Compatible Products

- RO Housings
- RO Membranes
- Domestic RO Membranes

FRP Vessels

WATER TREATMENT COMPONENTS

Product overview, quote QR, key features, applications, and related product direction.

Verified Product Details

PRODUCT CATEGORY	Water Treatment Components
PRODUCT PAGE	iconicfiltration.com/products/frp-vessels

Short Description

FRP vessels give filtration and softening systems a corrosion-resistant pressure body for media beds, distributors, and service valves. They are commonly used by OEMs and plant teams that need dependable performance with lower handling weight than metallic vessels.

Request a Quote

Key Features

- Operating pressure and design margin
- Media volume and freeboard
- Valve compatibility

Applications

- Pressure sand filters
- Activated carbon filters
- Water softeners

Available Sizes / Variants

Verified data will be added when available.

Compatible Products

- RO Housings
- RO Membranes
- Domestic RO Membranes

Related Products

Verified data will be added when available.

Multiport Valves

WATER TREATMENT COMPONENTS

Product overview, quote QR, key features, applications, and related product direction.

Verified Product Details

PRODUCT CATEGORY	Water Treatment Components
PRODUCT PAGE	iconicfiltration.com/products/multiport-va

Short Description

Multiport valves simplify filter and softener operation by combining service, backwash, rinse, and regeneration paths in a compact control point. They help OEMs build cleaner assemblies with fewer external valves.

Request a Quote

Key Features

- Valve size and flow rating
- Manual or automatic actuation
- Mounting style

Applications

- Filter backwash control
- Softener regeneration
- Carbon filter operation

Available Sizes / Variants

Verified data will be added when available.

Compatible Products

- RO Housings
- RO Membranes
- Domestic RO Membranes

Related Products

Verified data will be added when available.

WATER TREATMENT COMPONENTS

Product overview, quote QR, key features, applications, and related product direction.

Verified Product Details	
PRODUCT CATEGORY	Water Treatment Components
PRODUCT PAGE	iconicfiltration.com/products/distribution-

Short Description

Distribution systems spread water evenly through the vessel, support media retention, and reduce channeling. Correct distributor selection protects media performance and keeps pressure drop under control.

Request a Quote

Key Features

- Vessel diameter
- Slot size and media grade
- Flow direction

Applications

- FRP and MS filter vessels
- Softener vessels
- Mixed-bed systems

Available Sizes / Variants

Verified data will be added when available.

Compatible Products

- RO Housings
- RO Membranes
- Domestic RO Membranes

Filter Cartridges

WATER TREATMENT COMPONENTS

Product overview, quote QR, key features, applications, and related product direction.

Verified Product Details	
PRODUCT CATEGORY	Water Treatment Components
PRODUCT PAGE	iconicfiltration.com/products/filter-cartrid

Short Description

Filter cartridges remove suspended particles before sensitive equipment or at the final polishing stage. They are a practical safeguard for membranes, instruments, nozzles, and process lines.

Request a Quote

Key Features

- Micron rating
- Cartridge length and diameter
- Dirt-holding capacity

Applications

- RO pre-filtration
- Final polishing
- Process protection

Available Sizes / Variants

Verified data will be added when available.

Filter Media

WATER TREATMENT COMPONENTS

Product overview, quote QR, key features, applications, and related product direction.

Verified Product Details

PRODUCT CATEGORY	Water Treatment Components
PRODUCT PAGE	iconicfiltration.com/products/filter-media

Short Description

Filter media supports removal of turbidity, color, odor, iron, organics, and application-specific contaminants. The right blend and bed depth help plants achieve consistent outlet quality.

Request a Quote

Key Features

- Raw-water analysis
- Bed depth and vessel size
- Backwash rate

Applications

- Pressure sand filters
- Activated carbon filters
- Iron removal units

Available Sizes / Variants

Verified data will be added when available.

Compatible Products

- RO Housings
- RO Membranes
- Domestic RO Membranes

Related Products

Cation Exchange Resins

WATER TREATMENT COMPONENTS

Product overview, quote QR, key features, applications, and related product direction.

Verified Product Details

PRODUCT CATEGORY	Water Treatment Components
PRODUCT PAGE	iconicfiltration.com/products/cation-exch

Short Description

Cation exchange resins exchange hardness ions and support softening or demineralization processes. Resin selection influences exchange capacity, regeneration efficiency, and leakage control.

Request a Quote

Key Features

- Total hardness and TDS
- Regeneration method
- Operating temperature

Applications

- Water softeners
- DM plants
- Boiler feed preparation

Available Sizes / Variants

Verified data will be added when available.

Electro Chlorination Systems

WATER TREATMENT COMPONENTS

Product overview, quote QR, key features, applications, and related product direction.

Verified Product Details

PRODUCT CATEGORY	Water Treatment Components
PRODUCT PAGE	iconicfiltration.com/products/electro-chlo

Short Description

Electro chlorination systems generate disinfectant on site from salt, reducing dependency on bulk chemical handling. They are suited to facilities that need repeatable chlorination with safer logistics and better operational control.

Request a Quote

Key Features

- Chlorine production capacity
- Salt and power availability
- Brine preparation space

Applications

- Cooling-water disinfection
- Drinking-water treatment
- Industrial utilities

Available Sizes / Variants

Verified data will be added when available.

Compatible Products

- RO Housings
- RO Membranes
- Domestic RO Membranes

Related Products

High Pressure Pumps

WATER HANDLING EQUIPMENT

Product overview, quote QR, key features, applications, and related product direction.

Verified Product Details

PRODUCT CATEGORY	Water Handling Equipment
PRODUCT PAGE	iconicfiltration.com/products/high-pressu

Short Description

High pressure pumps provide the pressure required for membrane separation and demanding water-transfer duties. Correct pump selection improves energy use, membrane performance, and operating stability.

Request a Quote

Key Features

- Flow and head requirement
- Material of construction
- NPSH and suction condition

Applications

- RO feed pumping
- Industrial process water
- Pressure boosting

Available Sizes / Variants

Verified data will be added when available.

Compatible Products

- Hydro Pneumatic Tanks
- Level Sensors

Related Products

Verified data will be added when available.

Hydro Pneumatic Tanks

WATER HANDLING EQUIPMENT

Product overview, quote QR, key features, applications, and related product direction.

Verified Product Details

PRODUCT CATEGORY	Water Handling Equipment
PRODUCT PAGE	iconicfiltration.com/products/hydro-pneu

Short Description

Hydro pneumatic tanks store pressurized water and reduce pump cycling in distribution systems. They support steady pressure for buildings, utilities, and packaged treatment plants.

Request a Quote

Key Features

- Drawdown volume
- System pressure range
- Pump cycling target

Applications

- Commercial water supply
- Industrial utilities
- Booster systems

Available Sizes / Variants

Verified data will be added when available.

Level Sensors

WATER HANDLING EQUIPMENT

Product overview, quote QR, key features, applications, and related product direction.

Verified Product Details

PRODUCT CATEGORY	Water Handling Equipment
PRODUCT PAGE	iconicfiltration.com/products/level-sensc

Short Description

Level sensors protect pumps, automate tank operation, and improve visibility across water-handling systems. They help teams prevent dry run, overflow, and process interruption.

Request a Quote

Key Features

- Tank height and geometry
- Liquid characteristics
- Output signal

Applications

- Raw-water tanks
- Treated-water tanks
- Chemical day tanks

Available Sizes / Variants

Verified data will be added when available.

Compatible Products

- High Pressure Pumps
- Hydro Pneumatic Tanks

Wastewater Filtration Systems

WASTEWATER TREATMENT EQUIPMENT

Product overview, quote QR, key features, applications, and related product direction.

Verified Product Details

BRAND	Multiple brands available
PRODUCT CATEGORY	Wastewater Treatment Equipment
PRODUCT PAGE	iconicfiltration.com/products/wastewater

Short Description

Wastewater filtration systems help reduce suspended solids and improve water quality before discharge, reuse, or downstream treatment. They can be configured around application load and plant objectives.

Request a Quote

Key Features

- Influent solids load
- Target outlet quality
- Backwash and sludge handling

Applications

- Effluent polishing
- Reuse pre-treatment
- Tertiary filtration

Available Sizes / Variants

- PRO Series Membranes
- UF 8585 Ultrafiltration Membrane
- Hollow Fiber MBR Membrane

Compatible Products

- Wastewater Dosing Systems
- Wastewater Accessories

Related Products

- Hydranautics PRO Series Membranes

Wastewater Dosing Systems

WASTEWATER TREATMENT EQUIPMENT

Product overview, quote QR, key features, applications, and related product direction.

Verified Product Details

PRODUCT CATEGORY	Wastewater Treatment Equipment
PRODUCT PAGE	iconicfiltration.com/products/wastewater

Short Description

Wastewater dosing systems support pH control, coagulation, flocculation, odor management, and disinfection. Good dosing design improves treatment consistency and chemical control.

Request a Quote

Key Features

- Chemical type and concentration
- Required dosing accuracy
- Mixing point

Applications

- pH correction
- Coagulant dosing
- Flocculant dosing

Available Sizes / Variants

Verified data will be added when available.

LFC Membranes with LD Technology

LD TECHNOLOGY RO MEMBRANES

Product overview, quote QR, key features, applications, and related product direction.

Verified Product Details

BRAND	Hydranautics
PRODUCT CATEGORY	LD Technology RO Membranes
PRODUCT PAGE	iconicfiltration.com/companies/hydranau

Short Description

Low fouling membranes for municipal and industrial wastewater with organic fouling potential.

Request a Quote

Key Features

- Feed TDS and water chemistry
- Recovery target
- Fouling and scaling risk

Applications

- Municipal wastewater
- Industrial wastewater
- High fouling feed water

Available Sizes / Variants

Verified data will be added when available.

Compatible Products

- RO Housings
- Domestic RO Membranes
- RO Antiscalant

Related Products

PRO Series Membranes

PRO SERIES SPECIALTY MEMBRANES

Product overview, quote QR, key features, applications, and related product direction.

Verified Product Details

BRAND	Hydranautics
PRODUCT CATEGORY	PRO Series Specialty Membranes
PRODUCT PAGE	iconicfiltration.com/companies/hydranau

Short Description

Hydranautics PRO Series specialty membranes are designed for difficult industrial wastewater applications, including ZLD and MLD treatment requirements.

Request a Quote

Key Features

- Influent solids load
- Target outlet quality
- Backwash and sludge handling

Applications

- Industrial wastewater
- ZLD systems
- MLD systems

Available Sizes / Variants

Verified data will be added when available.

Compatible Products

- Wastewater Dosing Systems
- Wastewater Accessories
